## Children of Basera

Basera currently houses 45 boys and girls (Feb 2021), most of whom are from Khyber Pakhtunkhwa, Murree, AJK and Islamabad. Many are from areas affected by earthquakes, floods and terrorism. By providing these children a safe haven, they are protected from dangerous elements such as street criminals, drug addicts, human traffickers and terrorists.

Each Basera child goes to school, gets civic and religious education and regular health care visits. To instill discipline, children follow a balanced daily schedule with time for school, tutoring, prayers, homework, meals and leisure. Monthly recreational outings provide children an opportunity to observe and interact with nature and modern developments.

Care is taken to provide a congenial family environment so that children are happy, socially well-adjusted and well behaved. Relatives of Basera children are encouraged to meet them frequently. Children are also encouraged to visit their relatives on special occasions and holidays.

## Food and Nutrition

Basera administration regularly checks food quality to ensure that all children receive balanced & nutritious meals to support their growth and development.
